

PDX Onboarding with Accelerator for Retail

Course outline

AUTHOR: Stibo Systems MDM Academy

CONFIDENTIALITY LEVEL:

Public

Target group

- Senior application consultants, business consultants, or solution architects responsible for configuring the Accelerator for Retail solution when integrating with Product Data Exchange (PDX) solution for vendor onboarding

Pre-requisites for participation

- Stibo Systems Academy courses, or certification exam:
 - MDM 101 – MDM Solution Fundamentals or the knowledge taught in this course acquired in other ways.
 - APP 240 – Data Modeling
 - APP 241 – Data Management, and specific knowledge about user permissions, import and export configurations, advanced STEP xml taught in this course
- It is not mandatory, but it's strongly recommended that the participants be familiar with the PDX solution or have watched the PDX syndication online training offered by Stibo Systems

Course duration

The course duration is two **half** days.

Training delivery method

- ☐ In-person classroom
- ☒ Virtual classroom
- ☐ Self-paced online (offered in the Fuse platform)

Course purpose

In this course, you will learn the configurations needed for the Accelerator for Retail solution to integrate with the PDX vendor onboarding solution.

Course objectives

Upon completion of this course, participants will be able to:

1. Grasp the general set up of Accelerator for Retail and PDX;
2. Use Google Forms for Accelerator for Retail channel creation;
3. Handle supplier creation in the Accelerator for Retail system;
4. Specify data input from PDX integration to Accelerator for Retail;
5. Manipulate the configuration of standard Accelerator for Retail solution to integrate with PDX.

Learning objectives

The objectives below describe precisely what is taught during the training:

Course objective 1 - Grasp the general set up of Accelerator for Retail and PDX.

Learning objectives:

- Outline the process needed to establish the solution
- Know the basic concepts in Accelerator for Retail and PDX
- Differentiate between PDX syndication and PDX onboarding
- Know where to find PDX training materials

Course objective 2 - Use Google Forms for Accelerator for Retail channel creation

Learning objectives:

- Use the Google form accurately
- Trace creation of new PDX channels
- Outline the role of the Stibo PDX team during the channel creation

Course objective 3 - Handle supplier creation in the Accelerator for Retail system

Learning objectives:

- Administrate supplier groups and suppliers
- Determine how permissions work for creation of suppliers
- Differentiate between PDX user and Accelerator for Retail user
- Give examples of how to test channels, suppliers and groups

Course objective 4 - Specify data input from PDX integration to Accelerator for Retail

Learning objectives:

- Describe how Accelerator for Retail communicates with PDX
- Adapt attributes and attribute groups to fit the retailer needs
- Manage configurations for multiple languages
- Manage the import configuration to handle asset elements

Course objective 5 - Manipulate the configuration of standard Accelerator for Retail solution to integrate with PDX

Learning objectives:

- Report issues or data standards updates
- Summarize the limitations between the standard Accelerator for Retail and the PDX integration
- Outline the best practices of the configuration standards
- Identify how the retailer's data model influences the solution

About Stibo Systems

Stibo Systems, the master data management company, is the trusted source of MDM. Our solutions are the driving force behind forward-thinking companies around the world that have unlocked the strategic value of their master data, empowering them to improve the customer experience, drive innovation and growth and create an essential foundation for digital transformation. We give companies the transparency they require and desire – a single, accurate view of their master data – so they can make informed decisions and achieve goals of scale, scope and ambition. Stibo Systems is a privately-held subsidiary of the Stibo A/S group, founded in 1794, and is headquartered in Aarhus, Denmark. For more information, visit stibosystems.com
