

Everything You Need. Right from the Cloud.

Leverage Master Data Management (MDM)
with Managed Services

MDM Capabilities Made Easy

A Business-first Approach for the Cloud

Optimize your processes and achieve greater outcomes with a single, accurate view of master data—available from the cloud. You can leverage the power of the Stibo Systems' MDM platform using managed services to supply a Business-first approach to master data, eliminating IT issues and driving business value.

The fully managed Stibo Systems' MDM offers more than merely MDM hosted on Amazon Web Services (AWS) and Microsoft Azure. It supplies value-added services so that you can rapidly activate new environments. Moreover, you can remove the hurdles of resource requirements and technical know-how by relying on Stibo Systems to help get your system up-and-running.

Many Benefits. One Bundle.

Stibo Systems' professionals have worked carefully with customers—business leaders like you—to take the hassle out of purchasing managed services. Stibo Systems provides flexible subscription options that allow you to use the software from the cloud as your business requires.

The result is a flexible MDM platform that allows you to discover, create and manage relationships across critical business data. Leverage Stibo Systems' fully managed MDM to gain efficiencies including:

- Eliminate data silos
- Improve team and partner collaboration
- Increase operational efficiency
- Enhance customer experience
- Ensure regulatory compliance

The Solution You've Always Wanted

Stibo Systems, partnering with managed hosting leader Logicworks, provides superior managed services so you can focus on the business of using MDM to improve your decision making. In addition, Stibo Systems deploys Amazon Web Services (AWS) and Microsoft Azure to give you a high-performance environment and secure infrastructure to protect your sensitive data.

You can use Stibo Systems as single point of contact responsible for hosting, monitoring and maintenance, installation and more.

Your offering includes:

- 24/7 AWS/Azure Support
- Infrastructure Deployment and Management
- Proactive Monitoring
- Incident Management
- Backup and Restore Services

Make Stibo Systems' Experts Your Own

Take advantage of leading Stibo Systems' staff to handle your infrastructure needs so that you can focus on the business outcomes that matter to you and your customers.

You gain the technical expertise to meet your demands across domains that include products, suppliers, assets, locations and more. You also get a world-class offering and service to ensure MDM scalability, reliability and high performance.

Let Stibo Systems help you with:

- Setup/Onboarding
- Configuration and Build of AWS/Azure Environments
- Database Services
- Product and Platform Upgrades
- Patching and Maintenance
- Anti-virus Deployment
- VPN Endpoint Setup and Updates
- Base Disaster Recovery Setup
